Through the cooperation efforts of WECC, World Electronic Circuits Council organized by CPCA, EIPC, HKPCA, IPC, IPCA, KPCA, and TPCA in World Electronic Circuits Industry, JPCA Show is not regional event any more, but now really international exhibition. The show site is structured by the exhibited content classifications such as PWB Technology Expo, FPC Expo, DES (Design & Mfg. Engineering Solutions) Expo, MicroTEST for Testing, Inspection, and Analysis Expo and Microelectronics Show for Advanced Electronics Packaging Exhibition to lead where all participants wish to successfully approach.

Attendance was a significant improvement over even more normal years in the past, and JPCA believes JPCA Show 2006/2006 Microelectronics Show was a tremendous success.
